

PROCUREMENT BLUES

Melody: Saint Louis Blues

I hate the EC, that bunch of Brussel jerks

Messing around with fabrication works

Procurement was good when it was understood

Feeling tomorrow like I felt today

Excluded sectors you're let to hope and pray

They'll slip you their price and make their getaway

Procurement day: with tender love you say

That I can bid you babe with my directive spray

Offshore works, with euro cash flow sting

Pull that contractor 'round by his apron string

Got that damned procurement blues

Yeah blue as I can be

Tender's man's got a heart like a pipeline on the
bottom of the sea

'Cause EC, seems to be, can't you see

Tenderee, far from me
